## **Introduction**

### ***About the Report:***

This weekly federal regulatory summary contains summaries of Federal Register notices and other information and is provided as a service of Naval Facilities Engineering Service Center, Port Hueneme, CA for various Navy and Marine Corps environmental personnel. Content is screened to include environmental and health/safety items specifically relevant to the Navy/Marine Corps or of broad general relevance to DOD.

### ***Meetings -***

Meeting cancellations and date changes appear only in the Upcoming Meetings section; they are not re-entered in the Summary of Issues.

### ***Subscription:***

Interested DOD personnel may receive a free weekly e-mail of this report. To subscribe or unsubscribe, log on to <http://regscreen.nfesc.navy.mil/htm/Subscribe.htm>. Contractors can be added to distribution if endorsed by their DOD contract representative via e-mail to us at [regdesk@nfesc.navy.mil](mailto:regdesk@nfesc.navy.mil). Include the DOD representative's name, e-mail, phone number, job title, command, and address and your e-mail, phone number, company, and contractual responsibility area. If you have problems, or need assistance please contact us at [regdesk@nfesc.navy.mil](mailto:regdesk@nfesc.navy.mil) or 805/982-1276.

### ***Web Database:***

A companion website is available at <http://regscreen.nfesc.navy.mil> (access limited to .mil domains) where you can find and retrieve items from past issues of the Weekly Regulatory Summary, or get an overview of upcoming regulations.

### ***Feedback:***

We have made every effort to ensure that the information provided is accurate and that all significant regulatory actions have been included. If you believe that an important issue has been omitted from this report or that the information is incorrect, please contact us at 805/982-1276 or 805/982-2640, or via e-mail at [regdesk@nfesc.navy.mil](mailto:regdesk@nfesc.navy.mil). Suggestions for improvement are also appreciated.

If you have specific concerns or would like to provide information to support Navy/DOD impacts from identified issues, please forward an e-mail detailing your comments. Please include the title and date of the issue. We may be contacted at: [regdesk@nfesc.navy.mil](mailto:regdesk@nfesc.navy.mil) or call 805/982-1276.

# Summary of Issues

## 1. General

Risk Assessment of Children Exposed to CCA Treated Playground Equipment.	<b>Date:</b> 11/13/2003
<b>Action Type:</b> Notice, Information	<b>Cite:</b> Scientific Advisory Panel Recent Additions
<p><b>Summary:</b></p> <p>The EPA Scientific Advisory Panel has released two preliminary draft documents related to the exposure and risk assessment of children exposed to CCA treated playground equipment.</p> <ul style="list-style-type: none"> <li>- A Probabilistic Risk Assessment for Children Who Contact CCA-Treated Playsets and Decks</li> <li>- A Probabilistic Exposure Assessment for Children Who Contact CCA-Treated Playsets and Decks Using the Stochastic Human Exposure and Dose Simulation Model (Draft Final Report).</li> </ul> <p>The probabilistic risk assessment suggests a cancer risk for exposure to CCA treated playsets and deck on the order of about 10E-5(1 per 100,000). The analysis in the study suggest that use of wood sealants and handwashing can significantly reduce cancer risk.</p> <p>The risk assessment document is available at:  <a href="http://www.epa.gov/scipoly/sap/2003/december3/shedsprobabalisticriskassessmentnov03.pdf">http://www.epa.gov/scipoly/sap/2003/december3/shedsprobabalisticriskassessmentnov03.pdf</a></p>	
<b>Potential Impact or Relevance:</b> Provided for information only.	<b>CFR References:</b>

## 2. AEA

Management and Disposal of Low-Activity Radioactive Waste – EPA Exploring Options	<b>Date:</b> 11/18/2003
<b>Action Type:</b> Proposed Rulemaking, Advanced Notice	<b>Cite:</b> 68 FR 65119
<p><b>Summary:</b>  EPA has given advance notice of proposed rulemaking to address options for disposal of low-level radioactive mixed waste, and low-level radioactive waste. One of the options under consideration is to allow disposal of these waste types in RCRA Subtitle C hazardous waste disposal facilities.</p> <p>The proposal discusses a wide range of waste categories, both regulated and unregulated, including technologically enhanced naturally occurring radioactive materials (TENORM), certain wastes from the extraction of uranium or thorium (such as those generated by the Formerly Utilized Sites Remedial Action Program (FUSRAP)), low-activity mixed waste, and low-activity radioactive waste, including DOE wastes. EPA is considering whether to provide non-regulatory guidance addressing disposal of waste types not currently regulated.</p> <p>Comments are due by March 17, 2004.</p>

### 3. CAA

HAP Delisting for Ethylene Glycol Monobutyl Ether	<b>Date:</b> 11/21/2003
<b>Action Type:</b> Proposed Rulemaking	<b>Cite:</b> 68 FR 65648
<p><b>Summary:</b>  EPA proposes to remove ethylene glycol monobutyl ether (EGBE) (or 2- Butoxyethanol) from the hazardous air pollutants (HAP) list. EPA has made an initial determination that there is adequate data on the health and environmental effects of EGBE to determine that emissions, ambient concentrations, bioaccumulation, or deposition of EGBE may not reasonably be anticipated to cause adverse human health or environmental effects. This document includes a detailed rationale for removing EGBE from the glycol ethers group of HAP.</p> <p>Comments are due by January 20, 2004.</p> <p>Ethylene glycol monobutyl ether is used in hydraulic fluids and as a coupling agent for water-based coatings. It is used in vinyl and acrylic paints and varnishes and as a solvent for varnishes, enamels, spray lacquers, dry cleaning compounds, textiles, and cosmetics. Ethylene glycol monobutyl ether is a solvent for grease and grime in industrial cleaning. It is also used as a freeze-thaw agent in latex paints and emulsions, and as an intermediate in the production of esters, ethers, alkoxy alkyl halides, polyether alcohols, hemiacetals and acetals.</p>	
<b>Potential Impact or Relevance:</b> Potential interest to industrial facilities.	<b>CFR References:</b> 40 CFR 63

#### 4. CAA

Task Force on Agricultural Air Quality	<b>Date:</b> 11/20/2003
<b>Action Type:</b> Meeting Announcement	<b>Cite:</b> 68 FR 65434
<b>Summary:</b> Agricultural Air Quality Task Force will meet on December 3-4, 2003 in Monterey, CA to continue discussions on critical air quality issues in relation to agriculture. Special emphasis will be placed on obtaining a greater understanding about the relationship between agricultural production and air quality.  The agenda includes: <ul style="list-style-type: none"><li>- Diesel Air Toxic Control Measures;</li><li>- Research Presentations: Field Research, Nitrogen Balance, Alternatives to Methyl Bromide;</li><li>- Presentation of Collaborative Efforts between NRCS and Local Air District;</li><li>- Presentation of South Coast Anaerobic Digester Project;</li><li>- Pesticide Volatile Organic Compounds.</li></ul>

**6. Hazardous Material Transportation**

Pipeline Safety: Guidance on When the Baseline Integrity Assessment Begins	<b>Date:</b> 11/17/2003
<b>Action Type:</b> Notice, Guidance	<b>Cite:</b> 68 FR 64948
<p><b>Summary:</b>          DOT's Research and Special Programs Administration's is releasing guidance to operators of natural gas transmission pipelines on what actions an operator must take to begin a baseline integrity assessment of pipeline segments located in high consequence areas. Assessments will need to have been started by June 17, 2004.</p> <p>The guidance is provided within the full text of the Federal Register announcement.</p>

**8. Natural and Cultural Resources**

Short-range High-frequency Whale- finder Sonar Systems	<b>Date:</b> 11/17/2003
<b>Action Type:</b> Meeting Announcement	<b>Cite:</b> 68 FR 64865
<p><b>Summary:</b>  National Marine Fisheries Service (NMFS) will hold a public meeting on November 20, 2003 in Silver Spring, MD, to inform interested parties of the proposed research by Dr. Peter J. Stein and solicit comments on his application for a scientific research permit and accompanying draft EA. Dr. Stein proposes to conduct studies to validate and improve the ability of short-range high-frequency whale-finder sonar systems to detect marine mammals without adversely affecting them.</p> <p>Comments due by December 5, 2003.</p>	
<p><b>Potential Impact or Relevance:</b>  Provided for information only.</p>	<p><b>CFR References:</b></p>

## 9. OSHA

Safety Standards for Cranes and Derricks	<b>Date:</b> 11/18/2003
<b>Action Type:</b> Meeting Announcement	<b>Cite:</b> 68 FR 65018
<p><b>Summary:</b>  The Crane and Derrick Negotiated Rulemaking Advisory Committee (C-DAC) will meet December 3, 4, 5, 2003 in Washington, DC and on January 5, 6, 7, 2004 in Las Vegas. The Committee will review draft regulatory text and substantive issues.</p> <p>The December meeting agenda includes:</p> <ul style="list-style-type: none"> <li>- wire rope;</li> <li>- hoisting personnel;</li> <li>- access to work zones;</li> <li>- overhead and gantry cranes;</li> <li>- responsibility for site and ground conditions.</li> </ul> <p>January meeting: the Committee anticipates discussing crane operations near electric power lines.</p> <p>OSHA anticipates that key issues to be addressed at future C-DAC meetings will include:</p> <ul style="list-style-type: none"> <li>- Definitions; Assembly &amp; Disassembly (including reeving/rigging); Operation Procedures; Signals; Operator Qualifications, Training &amp; Testing; Inspections; Modifications; Keeping Clear of the Load; Fall Protection; Hoisting Personnel; Machine Guarding; Qualifications of Maintenance &amp; Repair Workers; Work Zone Control; Wire Rope; Responsibility for environmental considerations, site conditions and ground conditions; Safety Devices: fail-safe, warning, secondary brake system, and other safety-related devices/technology; Operating Near Power Lines; Overhead &amp; Gantry Cranes; Derricks; Verification criteria for the structural adequacy of crane components and stability testing requirements; Free Fall/Power Down; Critical Lifts and Engineered Lifts; Tower Cranes; Operator Cab Criteria (roll over, visibility, overhead protection); Limited Requirements for cranes with a rated capacity of 2,000 pounds or less.</li> </ul>	
<p><b>Potential Impact or Relevance:</b>  Provided for information only.</p>	<p><b>CFR References:</b>  29 CFR 1926</p>
<p><b>Further Information:</b>  Michael Buchet, Office of Construction Standards and Guidance, OSHA, Washington, DC, 202-693-2345</p>	
<p><b>Full Text Document Location:</b>  <a href="http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/03-28767.htm">http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/03-28767.htm</a>  <a href="http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/pdf/03-28767.pdf">http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2003/pdf/03-28767.pdf</a></p>	

## 10. RCRA

<p>Identification and Listing of Hazardous Waste: Conditional Exclusions From Hazardous Waste and Solid Waste for Solvent-Contaminated Industrial Wipes</p>	<p><b>Date:</b> 11/20/2003</p>
<p><b>Action Type:</b> Proposed Rulemaking</p>	<p><b>Cite:</b> 68 FR 65585</p>
<p><b>Summary:</b>  EPA is proposing relief from RCRA regulation for certain solvent-contaminated materials, such as reusable shop towels, rags, disposable wipes and paper towels.</p> <p>EPA is proposing a conditional exclusion from the definition of hazardous waste for disposable industrial wipes that are contaminated with hazardous solvents and are going to disposal or combustion, and for reusable industrial shop towels and rags that are contaminated with hazardous solvents and are sent for laundering or dry cleaning.</p> <p>This proposal is applicable to industrial wipes either</p> <ul style="list-style-type: none"> <li>- Exhibiting a hazardous characteristic (i.e., ignitability, corrosivity, reactivity, or toxicity) due to use with solvents; or</li> <li>- Contaminated with F001-F005 spent F-listed solvents or comparable P- and U-listed commercial chemical products.</li> </ul> <p>Wipes must contain no free liquids, be stored in covered containers, and be transported offsite in containers designed to minimize solvent loss. EPA lists eleven solvents that would not qualify for the exemption, including methylene chloride, methyl ethyl ketone, benzene, tetrachloroethylene, trichloroethylene, and benzene.</p> <p>Comments on due by February 18, 2004.</p>	
<p><b>Potential Impact or Relevance:</b>  Provided for information only.</p>	<p><b>CFR References:</b>  40 CFR 260</p>
