UPCOMING MEETINGS	17

INTRODUCTION

About the Report:

This weekly federal regulatory summary contains summaries of Federal Register notices and other information and is provided as a service of Naval Facilities Engineering Service Center, Port Hueneme, CA for various Navy and Marine Corps environmental personnel. Content is screened to include environmental and health/safety items specifically relevant to the Navy/Marine Corps or of broad general relevance to DOD.

Meetings -

Meeting cancellations and date changes appear only in the Upcoming Meetings section; they are not re-entered in the Summary of Issues.

Subscription:

Interested DOD personnel may receive a free weekly e-mail of this report. To subscribe or unsubscribe, log on to <http://regscreen.nfesc.navy.mil/htm/Subscribe.htm>. Contractors can be added to distribution if endorsed by their DOD contract representative via e-mail to us at regdesk@nfesc.navy.mil. Include the DOD representative's name, e-mail, phone number, job title, command, and address and your e-mail, phone number, company, and contractual responsibility area. If you have problems, or need assistance please contact us at regdesk@nfesc.navy.mil or 805/982-1276.

Web Database:

A companion website is available at <http://regscreen.nfesc.navy.mil> (access limited to .mil domains) where you can find and retrieve items from past issues of the Weekly Regulatory Summary, or get an overview of upcoming regulations.

Feedback:

We have made every effort to ensure that the information provided is accurate and that all significant regulatory actions have been included. If you believe that an important issue has been omitted from this report or that the information is incorrect, please contact us at 805/982-1276 or 805/982-2640, or via e-mail at regdesk@nfesc.navy.mil. Suggestions for improvement are also appreciated.

If you have specific concerns or would like to provide information to support Navy/DOD impacts from identified issues, please forward an e-mail detailing your comments. Please include the title and date of the issue. We may be contacted at: regdesk@nfesc.navy.mil or call 805/982-1276.

Summary of Issues

1. General

Symposium on Recent Scientific Research Related to the Health Effects of Trichloroethylene	Date: 1/26/2004
Action Type: Meeting Announcement	Cite: 69 FR 3581
<p>Summary: EPA's National Center for Environmental Assessment (NCEA), is sponsoring a symposium on February 26-27 in Washington DC, on recently published scientific research related to the health effects of trichloroethylene (TCE).</p> <p>The symposium will consist of a series of invited presentations by a number of researchers from a variety of scientific fields who have recently published scientific findings related to the health effects of TCE.</p>	
<p>Potential Impact or Relevance: Provided for information only.</p>	<p>CFR References:</p>
<p>Further Information: Dr. Weihsueh Chiu, EPA, Washington, DC, 202-564-7789, chiu.weihsueh@epa.gov</p>	
<p>Full Text Document Location: http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/04-1547.htm http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/pdf/04-1547.pdf</p>	

2. CAA

Interstate Transport of Fine Particulate Matter and Ozone	Date: 1/30/2004
Action Type: Proposed Rulemaking	Cite: 69 FR 4565
<p>Summary: EPA is proposing a regulatory finding that 29 States and the District of Columbia contribute significantly to nonattainment of the national ambient air quality standards (NAAQS) for fine particles (PM_{2.5}) and/or 8-hour ozone in downwind States. The EPA is proposing to require these upwind States to revise their State implementation plans (SIPs) to include control measures to reduce emissions of sulfur dioxide (SO₂) and/or nitrogen oxides (NO_x).</p> <p>EPA is proposing that the emissions reductions be implemented in two phases, with the first phase in 2010 and the second phase in 2015. The proposed emissions reduction requirements would be based on controls that are known cost effective controls for electric generating units. SO₂ emissions would be reduced by 3.6 million tons in 2010 (approximately 40 percent below current levels) and by another 2 million tons per year when the rules are fully implemented (approximately 70 percent below current levels). Emissions of NO_x would be cut by 1.5 million tons in 2010 and 1.8 million tons annually in 2015 (about 65 percent below today's levels).</p> <p>Each affected state would be required to revise its state implementation plan to include control measures to meet specific statewide emission reduction requirements. To achieve the required reductions in the most cost effective way, the proposal suggests that states regulate power plants under a cap and trade program.</p> <p>Comments are due March 30, 2004. Information on public hearing will be made available at: http://www.epa.gov/interstateairquality/</p>	
<p>Potential Impact or Relevance: Potential impact on a wide range of stationary sources that emit NO_x and SO_x in the 29 covered states and the District of Columbia. However, direct impacts are expected to be limited to large utility boilers.</p>	<p>CFR References: 40 CFR 51 40 CFR 72 40 CFR 75 40 CFR 96</p>

3. CAA

Protection of Stratospheric Ozone: Allocation of Essential Use Allowances for Calendar Year 2004	Date: 1/28/2004
Action Type: Final Rule	Cite: 69 FR 4059
Summary: EPA is allocating essential use allowances for import and production of class I stratospheric ozone depleting substances (ODSs) for calendar year 2004. EPA is allocating 141.877 metric tons of methyl chloroform to the Space Shuttle Program. EPA has previously issued methyl chloroform allowances to the Space Shuttle and Titan Rocket programs. The Air Force notified EPA that they have no need for 2004 allowances for the Titan Rocket program. NASA has identified and is using alternative solvents in the Space Shuttle program in all but a few remaining applications, for which no satisfactory alternative to methyl chloroform has yet been found. The remaining applications for which there is no alternative are case insulation components cleaning, activation of rubber layers in case insulation, flex bearing cleaning, and field joint cleaning.	
Potential Impact or Relevance: Provided for information only.	CFR References: 40 CFR 82
Further Information: Scott Monroe, EPA, Global Programs Division, Washington, DC, (202) 343-9712, monroe.scott@epa.gov .

4. *Climate Change And Energy*

Climate Variability and Human Health Grants	Date: 1/29/2004
Action Type: Notice	Cite: 69 FR 4292
<p>Summary: National Oceanic Atmospheric Administration (NOAA) and the National Science Foundation (NSF) have announced a request for research proposals to improve understanding of the human health consequences related to climate variability and enhance the integration of useful climate information into public health policy and decision-making. The goal is to fund multidisciplinary teams investigating biological, and physical pathways by which climate may affect human health. (For example, climate is one of the factors that governs the occurrence of many infectious diseases and disease vectors.)</p> <p>A copy of the grant request is available at: http://fedgrants.gov/Applicants/DOC/NOAA/GMC/11460-OAR-1-28-04/listing.html</p>	
<p>Potential Impact or Relevance: Provided for information only.</p>	<p>CFR References:</p>
<p>Further Information: Diane S. Brown, Office of Global Programs, National Oceanic and Atmospheric Administration, Silver Spring, MD,301-427-208, ogpgrants@noaa.gov.</p>	
<p>Full Text Document Location: http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/04-1897.htm http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/pdf/04-1897.pdf</p>	

5. *Climate Change And Energy*

Alternative Fuel Transportation Program; Private and Local Government Fleet Determination	Date: 1/29/2004
Action Type: Final Rule	Cite: 69 FR 4219
<p>Summary: DOE has published a final decision not to promulgate regulations requiring private and local government fleets to acquire alternative fueled vehicles. DOE's finds that such a requirement would not appreciably increase the percentage of alternative fuel and replacement fuel used by motor vehicles in the United States and thus would make no more than a negligible contribution to the achievement of the replacement fuel goals set forth in Energy Policy Act of 1992 (EPAAct).</p> <p>"Replacement fuel" is defined by EPAAct (at 42 U.S.C. 13211) to mean "the portion of any motor fuel that is methanol, ethanol, or other alcohols, natural gas, liquefied petroleum gas, hydrogen, coal derived liquid fuels, fuels (other than alcohol) derived from biological materials, electricity (including electricity from solar energy), ethers," or any other fuel that the Secretary determines "is substantially not petroleum and would yield substantial energy security benefits and substantial environmental benefits." "Alternative fuel" is defined to include many of the same types of fuels but also includes certain "mixtures" of alternative fuels blended with small portions of petroleum-based fuel.</p> <p>DOE's experience with implementation of the Federal fleet, State fleet, and alternative fuel provider fleet programs leads DOE to conclude that given the current alternative fuel infrastructure and high alternative fuel costs relative to conventional motor fuels (despite availability of large total numbers of AFVs), market forces would prevent more than a very small increase in replacement fuel use in covered fleets, even if DOE were to impose a private and local government fleet AFV vehicle acquisition requirement.</p>	
<p>Potential Impact or Relevance: Provided for information only; no immediate connection to alternative fuel vehicle fleet requirements applicable to federal agencies.</p>	<p>CFR References: 10 CFR 490</p>

6. Natural and Cultural Resources

Coral Reef Task Force Meeting	Date: 1/29/2004
Action Type: Meeting Announcement	Cite: 69 FR 4293
<p>Summary: The Coral Reef Task Force will meet on February 24-25, 2004, in Washington, DC. The meeting will include a report on the implementation of 3-year Local Action Strategies, status of Task Force resolutions, and updates on action items from the previous task force meeting.</p> <p>Once finalized, the agenda will be available at: http://coralreef.gov/.</p>	
<p>Potential Impact or Relevance: Provided for information only.</p>	<p>CFR References:</p>

7. NEPA

Environmental Impact Statements and Regulations; Availability of EPA Comments	Date: 1/30/2004
Action Type: Notice	Cite: 69 FR 4512
<p>Summary: The following is a summary of comments issued by EPA to the following projects:</p> <p>DRAFT EIS UAF, WV, Aircraft Conversion for the 167th Air Wing (167 AW) of the West Virginia Air National Guard, Converting C-130H Transport Aircraft to the Larger C-5 Transport Aircraft, Acquisition of Land via Lease, and Construction of Facilities on existing and acquired Parcel, Berkeley County, WV, Comment Period Ends: March 15, 2004, Contact: Lt. Col. Tammy Mitwik (301) 836-8636. EIS No. 040033</p>	
<p>Potential Impact or Relevance: Provided for information only.</p>	<p>CFR References:</p>
<p>Further Information: See contact information above.</p>	
<p>Full Text Document Location: http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/04-2008.htm http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/pdf/04-2008.pdf</p>	

8. NEPA

EIS on the Proposed Military Family Housing, Modifications, Eglin Air Force Base and Hurlburt Field, FL	Date: 1/26/2004
Action Type: Notice	Cite: 69 FR 3570
<p>Summary: The Air Force intends to prepare an EIS on a proposal to rapidly upgrade housing to current Air Force standards at Eglin AFB, FL and Hurlburt Field, FL. A total of 2,739 existing housing units distributed among thirteen parcels on Eglin AFB and Hurlburt Field would be conveyed to a private contractor along with associated infrastructure and utilities. Selected real estate among the units would remain in Air Force ownership but would be leased to the private developer for 50 years. The developer will manage and maintain the housing, making it available to military personnel at rates that will not exceed their housing allowance.</p> <p>Of the 2,739 total units proposed for conveyance, there are:</p> <ul style="list-style-type: none"> - 138 units do not require improvement; - 2 units that would be renovated in place; - 2,594 units would be demolished. <p>The Air Force is proposing that a developer construct 2,015 new units, for a net total of 2,155 privatized military family housing units.</p> <p>Comments are due by March 23, 2004.</p>	
Potential Impact or Relevance: Provided for information only.	CFR References:

<p>Full Text Document Location: http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/04-1537.htm http://a257.g.akamaitech.net/7/257/2422/14mar20010800/edocket.access.gpo.gov/2004/pdf/04-1537.pdf</p>	

9. NEPA

Construction and Operation of an Integrated Research Facility by the National Institutes of Health at Fort Detrick, MD	Date: 1/29/2004
Action Type: Record of Decision	Cite: 69 FR 4307
<p>Summary: National Institutes of Health (Department of Health and Human Services) has announced their decision to construct and operate an Integrated Research Facility adjacent to the existing U.S. Army Medical Research Institute of Infectious Diseases (USAMRIID) facilities at Fort Detrick, Maryland</p> <p>The National Institute of Allergy and Infectious Diseases (NIAID), a component of NIH, will be the occupant of the facility, which will contain Intramural NIAID bio-safety level -2, -3, and -4 laboratory and animal research facilities for conducting biodefense and emerging infectious disease research. NIAID's biodefense mission is different but complementary to USAMRIID's.</p>	
<p>Potential Impact or Relevance: Provided for information only.</p>	<p>CFR References:</p>

10. NEPA

Draft Environmental Impact Statement for Purchase of Land for a Naval Special Operations Forces Training Range, Hancock County, MS	Date: 1/30/2004
Action Type: Notice	Cite: 69 FR 4497
<p>Summary: The Navy has prepared a Draft Environmental Impact Statement to evaluate the potential environmental consequences of purchasing 5,200 acres inside the northwestern acoustic buffer zone at the NASA's Stennis Space Center in Hancock County, MS. The acquired acreage would be used as a Naval Special Operations Forces Training Range for a riverine and jungle training range where exercises using Short Range Training Ammunition (SRTA) could be conducted. SRTA is a plastic, non-lead, non-explosive projectile with a limited flight profile.</p> <p>Naval Special Operations Forces would conduct water-to-land SRTA fire training from the East Pearl River into the range and land-to-land SRTA fire would be conducted wholly inside the range perimeter. The following training activities would also occur within the range perimeter: land patrolling and reconnaissance by foot and passenger vehicles; equipment testing and evaluation; immediate action drills; communications drills; use of maritime unmanned aerial vehicles, unmanned riverine observation craft, and High Mobility Multi-purpose Wheeled Vehicles; and insertions and extractions via helicopter.</p>	
<p>Potential Impact or Relevance: Provided for information only.</p>	<p>CFR References:</p>

12. RCRA

Guidelines for Designating Biobased Products for Federal Procurement	Date: 1/26/2004
Action Type: Meeting Announcement	Cite: 69 FR 3533
<p>Summary: The Department of Agriculture Office of Energy Policy and New Uses (OEP) will meet in Washington, DC on January 29, 2004 to discuss the proposed rule "Guidelines for Designating Biobased Products for Federal Procurement" published in the Federal Register of December 19, 2003 (68 FR 70730). OEP will provide a presentation on the major provisions of the proposed rule, answer questions and receive comments.</p> <p>At this time no items have been designated. Eleven broad categories have been proposed for biobased products:</p> <ul style="list-style-type: none"> - Adhesives - Construction Materials / Composites - Fibers/ Paper/ Packaging - Fuel Additives - Landscaping Materials / Compost / Fertilizer - Lubricants / Functional Fluids (e.g., concrete release agent) - Plant and Vegetable Inks - Sorbents - Paints / Coatings - Plastics - Solvents / Cleaners <p>A video web streaming and transcripts of the meeting will be available at http://www.biobased.oce.usda.gov.</p>	
Potential Impact or Relevance: Provided for information only.	CFR References: 7 CFR 2902

Conditional Exclusions From Hazardous Waste and Solid Waste for Solvent-Contaminated Industrial Wipes	Date: 1/30/2004
Action Type: Notice, Comment Extension	Cite: 69 FR 4463
Summary: EPA is extending the comment period for the proposed rule entitled "Proposed Conditional Exclusions from Hazardous and Solid Waste for Solvent Contaminated Industrial Wipes," (November 20, 2003, 68 FR 65586). The public comment period that was set to end on February 18, 2004 has been extended to March 19, 2004.	
Potential Impact or Relevance: Provided for information only.	CFR References: 40 CFR 260 40 CFR 261
Further Information: Kathy Blanton, 703-605-0761, EPA, Washington, DC, blanton.katherine@epa.gov .

14. SDWA

Formation of a Water Security Working Group	Date: 1/30/2004
Action Type: Meeting Announcement	Cite: 69 FR 4514
<p>Summary: EPA will hold a teleconference on February 10, 2004 to continue discussion on the formation of a Water Security Working Group of the National Drinking Water Advisory Council. EPA is designated as the lead agency for the security of the nation's drinking water and wastewater sectors, and is proposing to develop best security practices for drinking water and wastewater facilities.</p> <p>During the November 19-20, 2003, meeting, the National Drinking Water Advisory Council (NDWAC) decided to forgo an official vote on the formation of the Water Security Working Group (WSWG) until there was an official charge before the members. The draft charge for the Water Security Working Group is to provide recommendations to the full council to:</p> <ol style="list-style-type: none"> (1) Identify and prioritize a suite of best security practices for water utilities to improve security; (2) propose incentives to help facilitate a broad and receptive response amongst the water sector to implement these best practices; and (3) recommend mechanisms to recognize and measure the implementation of these best security practices. 	
<p>Potential Impact or Relevance: Potential interest to water system managers and those involved in preparation of water system security assessments.</p>	CFR References:
